CVS caremark®

Maintenance Choice®

You may be able to save with 90-day supplies

Maintenance Choice helps keep your medication as affordable as possible. Make the change to 90-day supplies and you could enjoy these savings.

Help keep your costs low

Your new prescription benefit plan allows you to get the medications you take regularly (for things like diabetes, high blood pressure, asthma, etc.) in 90-day supplies at a select participating pharmacy. Filling in 90-day supplies may save you money under your plan benefit.

How to fill in 90-day supplies:

1. On or after your new plan's effective date, use the *Pharmacy Locator* tool on Caremark.com to find a select participating pharmacy

2. Ask your prescriber to send a new 90-day prescription to that pharmacy for pickup or delivery

Keep in mind, you may pay more under your plan benefit if you continue to fill these medications at a non-participating pharmacy or in 30-day supplies.
