

Savings Plus Plan, Lam Research 401(k)

Invest in your retirement—and yourself—today, with help from Lam Research and Fidelity.

YOUR GUIDE TO GETTING STARTED

Invest some of what you earn today for what you plan to accomplish tomorrow.

Take advantage of Lam's generous matching contribution, easy enrollment and online navigation, and a variety of investment options. Take a look and see what a difference the Plan could make in achieving your goals.

You can benefit from:

Matching contributions. Lam helps your contributions grow through a generous match of up to 3% annually—it's like getting "free" money. The Company will match 50% of each pretax or Roth 401(k) dollar you contribute on the first 6% of pay that you defer to your plan. That's why it makes good financial sense to take advantage of this great benefit today!

Roth contributions. You have an additional way to save for retirement through the Roth 401(k) contribution.

Roth In-plan conversion. The Roth In-plan conversion service allows participants to potentially build more tax-free retirement income. Refer to page 2 for more information.

After-tax contributions. After-tax contributions allow you to pay taxes up front at your current tax rate. When you withdraw money at retirement, you only pay taxes on the value of any investment earnings on your contributions.

Tax savings now. Your pretax contributions are deducted from your pay before income taxes are taken out. This means that you can actually lower the amount of current income taxes you pay each period. It could mean more money in your take-home pay versus saving money in a taxable account.

Tax-deferred savings opportunities. You pay no taxes on any pretax earnings until you withdraw them from your account, enabling you to keep more of your money working for you now.

Portability. You can roll over eligible savings from a previous employer into this Plan. You can also take your plan vested account balance with you if you leave the company.

Investment options. You have the flexibility to select from investment options that range from more conservative to more aggressive, making it easy for you to develop a well-diversified investment portfolio. Your plan offers you the option of having experienced professionals manage your account for you.

Online beneficiary. With Fidelity's Online Beneficiaries Service, you can designate your beneficiaries, receive instant online confirmation, and check your beneficiary information virtually any time.

Catch-up contributions. If you make the maximum contribution to your plan account, and you are 50 years of age or older during the calendar year, you can make an additional catch-up contribution of \$8,000 in 2026.

The SECURE 2.0 Act increases the limit for you if you have attained age 60, 61, 62, or 63 in a given calendar year. The limit for 2026 is \$11,250.

Participate in your plan and invest in yourself today.

Frequently asked questions about your plan.

Here are answers to questions you may have about the key features, benefits, and rules of your plan.

When can I enroll in the Plan?

There is no waiting period. You can enroll in the Plan at any time.

How do I enroll in the Plan?

There are three ways to enroll in the Plan:

EasyEnroll

Log on to Fidelity NetBenefits®.

In less than a minute, start saving in the Plan the quick and easy way - with EasyEnroll.

Once you have logged on to NetBenefits® you'll simply:

1. Choose a Starter Package of either 8%, 10% or 12% as selected by Lam Research to enroll.
2. Afterward, log in to NetBenefits at any time to modify details.

Once you are ready, click the Start Easy Enroll button.

Standard Enrollment

Log on to Fidelity NetBenefits® or call the Fidelity Benefit Service Center at 1-800-835-5095. This enrollment process lets you customize your choices, including savings rate and investment options, before enrolling.

Auto Enrollment

If you do not enroll in the Plan within 30 days from your date of hire, you will be automatically enrolled in the Plan at a contribution rate of 6% of your pretax eligible compensation. Note: you will not be auto enrolled for purposes of bonus compensation. Your contributions will be invested in the State Street Target Retirement Securities Lending Series Fund Class V options based on a retirement date of age 65. However, we

encourage you to take an active role in the Plan and to choose a contribution rate and investment options that are appropriate for you. If you do not wish to contribute to the Plan, you must change your contribution rate to 0% within the first 30 days of your employment.

You may change your contribution rate at any time online, or by calling the Fidelity Benefit Service Center at 1-800-835-5095.

When is my enrollment effective?

Your enrollment becomes effective once you elect a deferral percentage or with your Auto Enrollment, which initiates deduction of your contributions from your pay. These salary deductions will generally begin with your next pay period or as soon as administratively possible.

A Recordkeeping fee of \$10 will be applied quarterly to your account. This fee may include legal, accounting, trustee, recordkeeping, and other administrative fees and expenses associated with maintaining the Plan.

Does the Company contribute to my account?

The Plan helps your retirement savings grow by matching your contributions.

The Company will match 50% of each pretax or Roth 401(k) dollar you contribute on the first 6% of pay that you defer to your plan. The Company does not match your after-tax or catch-up contributions. In any event, the Company's matching contribution may not exceed 3% of your eligible compensation.

How much can I contribute?

Through automatic payroll deduction, you may contribute up to 75% of your eligible pay on a pretax, Roth 401(k), and an after-tax basis or a combination of the three, up to the annual IRS limits. You may also designate up to 75% of your bonus, up to the appropriate annual 401(k) IRS limit, as pretax, Roth 401(k), or after-tax contributions. Sign up online by accessing the "Contribution Amount" section under "Quick Links" on NetBenefits®, or by calling the Fidelity Benefit Service Center at 1-800-835-5095.

The Internal Revenue Code further states that the combined (Pretax, Roth, After-tax, Catchup, and Employer contributions) annual limit for total plan contributions, referred to as the 415 contribution limit, is 100% of your W2 compensation or \$72,000 for 2026, whichever is less. You may contribute an additional \$8,000 if you are 50 years of age or older during the calendar year or \$11,250 if you turn age 60, 61, 62, or 63 in a given calendar year. Keep in mind your total combined Lam Research (Pretax, Roth, and After-tax) deferrals for 2026 cannot exceed \$54,500.

What is the Roth contribution option?

A Roth contribution to your retirement savings plan allows you to make after-tax contributions and take any associated earnings completely tax free at retirement - as long as the distribution is a qualified one. A qualified distribution, in this case, is one that is taken at least five tax years after your first Roth 401(k) contribution and after you have attained age 59½, or become disabled or die.

Find more information online within the "Plan & Learn" drop down and "Learn" section of NetBenefits®.

Starting in 2026, if your FICA wages from the prior calendar year with your current employer exceeded \$150,000, any age 50 catch-up contributions to the Plan must be made as Roth contributions. If your FICA wages were \$150,000 or less, you can designate your catch-up contribution to be pretax and Roth.

What is the additional after-tax contribution option?

Like Roth 401(k) contributions, with additional after-tax contributions you also pay taxes up front at your current tax rate. When you withdraw money at retirement, you only pay taxes on the value of any investment earnings on your contributions.

What is a Roth In-Plan Conversion?

Roth In-Plan Conversion options are available in Lam Research. This option provides you with the opportunity to convert all, or a portion of your non-Roth assets to Roth assets. The amount eligible for conversion, may include all of a participant's vested assets, including both eligible contributions and related earnings.

Special tax rules apply to Roth In-Plan Conversion options and are an important consideration in determining whether to do such a conversion. Generally, the taxable amount of a conversion is determined as if the converted assets were distributed to you from the Plan, although the assets will only be transferred to the Roth portion of your account and no amount will actually be paid from the Plan. The taxable amount (determined as if actually distributed to you) is taxable to you in the year of the conversion and should be reported on your income tax return for that year. For more information related to the tax consequence of a conversion, you should consult your tax or financial advisor before undertaking such a conversion. You may contact the Fidelity Benefit Service Center at 1-800-835-5095 to process a Roth In-Plan Conversion.

Why consider a Roth In-Plan Conversion?

There are several factors to consider when determining if the Roth 401(k) In-Plan Conversion feature is right for you, including tax planning strategies, your age, and cash that may be needed to pay taxes on the converted amounts. You should consult a tax or financial advisor before deciding whether this is right for you. Generally, you should consider Roth In-Plan Conversions for your additional after-tax

contributions after you've saved enough through Traditional pretax 401(k) and/or Roth after-tax 401(k) contributions to hit the IRS limits (\$24,500 or \$32,500 if you're age 50 or older, for 2026).

Can you pay the taxes on the conversion?

This is one of the most critical factors when considering a Roth conversion. You will need to be sure you can pay the current income taxes related to any taxable Roth conversion.

How Roth In-Plan Conversions work?

Building more tax-free retirement income is an opportunity when you make after-tax contributions and convert the money to Roth on a regular basis. Here are steps to follow to help build more tax-free retirement income:

1. Save enough through pretax contributions and/or Roth contributions to reach the IRS limit (\$24,500 or \$32,500 if you're age 50 or older, for 2026). When you do, you'll maximize your Lam matching contributions.
2. Save up to \$30,000 in additional after-tax contributions once you've met the above IRS limit.
3. Convert your after-tax contributions to Roth 401(k) by calling a registered Fidelity representative at 1-800-603-4015.
4. Pay taxes on any investment earnings from the after-tax contributions generated prior to your conversion date. You will receive a 1099-R from Fidelity in January following the year in which you made any conversions.

For more information refer to the Maximize Your Savings Brochure available on NetBenefits within Plan Information and Documents.

How do you execute a Roth-In Plan Conversion?

If you have an eligible distribution option, call and speak with a Fidelity registered representative at 1-800-603-4015 to learn and find out more.

At that time, you may opt-in to the automation service which simplifies the process through automation instead of requiring you to call Fidelity every time a conversion is desired.

What catch-up contribution can I make?

If you have reached age 50 or will reach 50 during the calendar year January 1 – December 31 and are making the maximum plan or IRS contribution, you may make an additional catch-up contribution each pay period. You must be contributing at least 6% pretax, Roth 401(k), a combination of the two or have met the annual IRS 402(g) contribution limit in order to maximize company match, prior to making catch-up or Roth 401(k) catch-up elections. Going forward, catch-up contribution limits will be subject to cost of living adjustments (COLAs) in \$500 increments. You can contribute an additional \$8,000 catch-up contribution for 2026.

You make catch-up contributions through payroll deduction, the same way you make regular contributions. **Your catch-up contribution election is a separate election.**

Starting in 2026, if your FICA wages from the prior calendar year with your current employer exceeded \$150,000, any age 50 catch-up contributions to the Plan must be made as Roth contributions. If your FICA wages were \$150,000 or less, you can designate your catch-up contribution to be pretax and Roth.

The SECURE 2.0 Act increases the limit for you if you have attained age 60, 61, 62, or 63 in a given calendar year. The limit for 2026 is \$11,250.

What are the IRS contribution limits?

Your combined Roth and traditional pretax 401(k) contributions cannot exceed the 402(g) IRS contribution limit for the year set at \$24,500. If you worked at another employer during 2026, the \$24,500 limit applies to your contributions with all employers. If you turn 50 or are older this calendar year, you can contribute an additional \$8,000 catch-up contribution for 2026 or \$11,250 if you have

attained age 60, 61, or 63 in a given calendar year. If you would like to contribute a catch-up contribution amount, this requires a separate election.

The Internal Revenue Code further states that the combined (pretax, Roth, after-tax, catch-up, and Employer contributions) annual limit for total plan contributions, referred to as the 415 contribution limit, is 100% of your W2 compensation or \$72,000 for 2026, whichever is less. Keep in mind your total combined Lam Research (pretax, Roth, and after-tax) deferrals for 2026 cannot exceed \$54,500. You may contribute an additional \$8,000 if you are eligible for catch-up contributions, or \$11,250 if you have attained age 60, 61, or 63 in a given calendar year.

When am I vested?

You are immediately 100% vested in your own contributions to the Plan, as well as in any of the Company's matching contributions and any earnings on them.

What are my investment options?

To help you meet your investment goals, the Plan offers you a range of options. You can select a mix of investment options that best suits your goals, time horizon, and risk tolerance. The many investment options available through the Plan include conservative, moderately conservative, and aggressive funds. A complete description of the Plan's investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online.

What if I don't make an investment election?

We encourage you to take an active role in the Lam Research and choose investment options that best suit your goals, time horizon, and risk tolerance. If you do not select specific investment options in the Plan, your contributions will be invested in the State Street Target Retirement Securities Lending Series Fund Class V with the target retirement date closest to the year you might retire, based

on your current age and assuming a retirement age of 65, at the direction of Lam.

If no date of birth or an invalid date of birth is on file at Fidelity, your contributions may be invested in the State Street Target Retirement Securities Lending Fund Class V. More information about the State Street Target Retirement Securities Lending Series Fund Class V options can be found online.

Target Date Funds are an asset mix of stocks, bonds and other investments that automatically becomes more conservative as the fund approaches its target retirement date and beyond. Principal invested is not guaranteed.

What are the managed account options in my plan?

Fidelity® Personalized Planning & Advice ("The Service")

Fidelity® Personalized Planning & Advice is a retirement goal based managed account service with a team of portfolio managers who manage the investments in your workplace savings plan account. Based on your unique needs and goals, our team of professionals will create a plan that considers your total financial situation, put the plan into action, and work for you putting in the time, resources, and knowledge needed to keep you on track for retirement.

This includes:

- Regularly monitoring and rebalancing of your account
- Strategy refinement that supports you as your financial situation evolves
- Quarterly check-ins, which include your progress toward key milestones
- Personal planning dashboard that includes progress to retirement and other profile details

To see if Personalized Planning & Advice is right for you, talk to one of our financial representatives at 866-811-6041.

Can I take a loan from my account?

Although your plan account is intended for the future, you may borrow from your account for any reason.

Learn more about and/or request a loan online, or by calling the Fidelity Benefit Service Center at 1-800-835-5095.

Can I make withdrawals?

Withdrawals from the Plan are generally permitted when you terminate your employment, reach age 59½, become permanently disabled, or have severe financial hardship as defined by your plan. You may also make a withdrawal of all or a portion of the amounts in your after-tax account for any reason.

What happens when I leave the Company?

When you leave the Company, you can withdraw contributions and any associated earnings or, if your account balance is greater than \$1,000, you can leave contributions and any associated earnings in the Plan. After you leave the Company, if your account balance is equal to or less than \$1,000, it will automatically be distributed to you. In addition, your quarterly Recordkeeping fee will increase from \$10 to \$10.75.

Can I move money from another retirement plan into my account in the Plan?

If you wish to consolidate your account assets into your Lam Research 401(k), be sure to complete the Transfer/Rollover form at the back of this brochure and return it to Fidelity Investments. You should consult your tax adviser and carefully consider the impact of making a rollover contribution to your employer's plan because it could affect your eligibility for future special tax treatments.

To learn more about how to process a rollover online, log on to NetBenefits®, select Lam Research 401(k); then, click

"Rollovers" in the "Quick Links" dropdown menu. To access a hardcopy of the Rollover Form, click "Plan Information and Documents" in the "Quick Links" dropdown menu; then, select "Rollover Form" under "Forms." If you have questions or need assistance, call the Fidelity Benefit Service Center at 1-800-835-5095.

NOTE: After a rollover deposit, a 10-day hold will be placed on your account funds as a security measure. Access to your funds will be limited until after the hold period ends.

Need access sooner? Reach out to the Fidelity Benefit Service Center for assistance.

Be sure to consider all your available options and the applicable fees and features of each before moving your retirement assets.

How do I designate my beneficiary?

If you have not already selected your beneficiaries, or if you have experienced a life-changing event such as a marriage, divorce, birth of a child, or a death in the family, it's time to consider your beneficiary designations. Fidelity's Online Beneficiaries Service, offers a straightforward, convenient process that takes just minutes. To make your elections, click on the "Profile & Settings" icon in the upper right-hand corner, then select "Beneficiaries" and follow the online instructions.

Where can I find information about exchanges and other plan features?

Once you enroll, you will receive a welcome communication that provides details about managing your account. You can also learn about loans, exchanges, and more online. In particular, you can access loan modeling tools that illustrate the potential impact of a loan on the long-term growth of your account. You will also find a withdrawal modeling tool, which shows the amount of federal income taxes and early withdrawal

penalties you might pay, along with the amount of earnings you could potentially lose by taking a withdrawal. Additional information can be obtained by calling the Fidelity Benefit Service Center at 1-800-835-5095.

Investment Options

Before investing in any mutual fund, consider the investment objectives, risks, charges, and expenses. Contact Fidelity for a mutual fund prospectus or, if available, a summary prospectus containing this information. Read it carefully.

Here is a list of investment options for Lam Research. For up-to-date performance information and other fund specifics, go to www.netbenefits.com.

Target Date Funds

Placement of investment options within each risk spectrum is only in relation to the investment options within that specific spectrum. Placement does not reflect risk relative to the investment options shown in the other risk spectrums.

Investment options to the left have potentially more inflation risk and less investment risk

Investment options to the right have potentially less inflation risk and more investment risk

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment's name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as the investment's asset allocation changes. The investments are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after the investment's target dates.

Core Investment Options

Investment options to the left have potentially more inflation risk and less investment risk

Investment options to the right have potentially less inflation risk and more investment risk

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories and not on the actual investment options and their holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of 04/30/2026. There may be a number of funds in each category and each may have a significantly different risk profile as compared to other funds within that category as well as compared to funds in other categories on the spectrum. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decisions. The spectrum does not represent actual or implied performance.

Stock markets are volatile and can fluctuate significantly in response to company, industry, political, regulatory, market, or economic developments. Investing in stock involves risks, including the loss of principal.

Investing in bonds involves risk, including interest rate risk, inflation risk, credit and default risk, call risk, and liquidity risk.

Description of Investment Options

AB Large Cap Growth Fund Advisor Class

VRS Code: 885422

Gross Expense Ratio: 0.55% as of 10/31/2025

Fund Objective: The investment seeks long-term growth of capital.

Fund Strategy: The fund invests primarily in equity securities of a limited number of large, carefully selected, high-quality U.S. companies. It invests primarily in the domestic equity securities of companies selected by the fund's Adviser for their growth potential within various market sectors. The fund emphasizes investments in large, seasoned companies. Under normal circumstances, the fund will invest at least 80% of its net assets in common stocks of large-capitalization companies. It may, at times, invest in shares of exchange-traded funds in lieu of making direct investments in securities.

Fund Risk: Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 10/01/1996. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 09/28/1992, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

American Funds EUPAC Fund Class R-6

VRS Code: 885007

Gross Expense Ratio: 0.47% as of 06/01/2025

Fund Objective: The investment seeks long-term growth of capital.

Fund Strategy: The fund invests primarily in common stocks in Europe and the Pacific Basin that the investment adviser believes have the potential for growth. Growth stocks are stocks that the investment adviser believes have the potential for above-average capital appreciation. It normally will invest at least 80% of its net assets in securities of issuers in Europe and the Pacific Basin. The fund may invest a portion of its assets in common stocks and other securities of companies in emerging markets.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/01/2009. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 04/16/1984, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

American Funds New Perspective Fund® Class R-6**VRS Code:** 885010**Gross Expense Ratio:** 0.4% as of 12/01/2025**Fund Objective:** The investment seeks long-term growth of capital.**Fund Strategy:** The fund seeks to take advantage of investment opportunities generated by changes in global trade patterns and economic and political relationships by investing in common stocks of companies located around the world. In pursuing its investment objective, it invests primarily in common stocks that the investment adviser believes have the potential for growth.**Fund Risk:** Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking an investment that invests in both domestic and international markets.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and the generally higher degree of risk associated with international investments.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/01/2009. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 03/13/1973, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

BlackRock Strategic Global Bond Fund, Inc. Institutional Shares**VRS Code:** 878447**Gross Expense Ratio:** 0.78% as of 04/30/2026**Fund Objective:** The investment seeks high current income by investing in a global portfolio of fixed income securities denominated in various currencies, including multi-national currency units.**Fund Strategy:** The fund mainly invests in bonds and other fixed-income securities that periodically pay interest or dividends. It normally will invest at least 80% of its net assets plus any borrowings for investment purposes in bonds and related derivative instruments with similar economic characteristics. The fund may invest up to 100% of its assets in securities classified as junk bonds.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to complement his or her core bond holdings with international bond investments and who can tolerate the greater risks associated with foreign investments.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
-

DFA U.S. Targeted Value Portfolio Institutional Class

VRS Code: 842267

Gross Expense Ratio: 0.3% as of 02/28/2026

Fund Objective: The investment seeks long-term capital appreciation.

Fund Strategy: The fund purchases a broad and diverse group of the readily marketable securities of U.S. small and mid cap companies that the advisor determines to be value stocks with higher profitability. It may purchase or sell futures contracts and options on futures contracts for U.S. equity securities and indices, to increase or decrease equity market exposure based on actual or expected cash inflows to or outflows from the fund.

Fund Risk: The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
-

Dodge & Cox Income Fund Class X

VRS Code: 913783

Gross Expense Ratio: 0.36% as of 05/01/2026

Fund Objective: The investment seeks a high and stable rate of current income, consistent with long-term preservation of capital; a secondary objective is capital appreciation.

Fund Strategy: The fund invests in a diversified portfolio of bonds and other debt securities. The fund will invest at least 80% of its total assets in (1) investment-grade debt securities and (2) cash equivalents. "Investment grade" means securities rated Baa3 or higher by Moody's Investors Service, or BBB- or higher by Standard & Poor's Ratings Group or Fitch Ratings, or equivalently rated by any nationally recognized statistical rating organization, or, if unrated, deemed to be of similar quality by Dodge & Cox.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/02/2022. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 01/03/1989, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Dodge & Cox Stock Fund Class X

VRS Code: 913785

Gross Expense Ratio: 0.46% as of 05/01/2026

Fund Objective: The investment seeks long-term growth of principal and income; a secondary objective is to achieve a reasonable current income.

Fund Strategy: The fund invests primarily in a diversified portfolio of equity securities. It will invest at least 80% of its total assets in equity securities, including common stocks, depository receipts evidencing ownership of common stocks, certain preferred stocks, securities convertible into common stocks, and securities that carry the right to buy common stocks. The fund may invest up to 20% of its total assets in securities of non-U.S. issuers that are not in the S&P 500 Index.

Fund Risk: Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is comfortable with the volatility of large-cap stocks and value-style investments.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent US equity performance.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/02/2022. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 01/04/1965, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Fidelity® Emerging Markets Fund Class K

VRS Code: 002084

Gross Expense Ratio: 0.74% as of 12/30/2025

Fund Objective: Seeks capital appreciation.

Fund Strategy: Normally investing at least 80% of assets in securities of issuers in emerging markets and other investments that are tied economically to emerging markets. Normally investing primarily in common stocks.

Fund Risk: Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks, all of which are magnified in emerging markets.

Fund short term trading fees: None

Who may want to invest:

- Someone who is willing to accept the higher degree of risk associated with investing in emerging markets.
- Someone who is seeking to complement a portfolio of domestic investments and/or international investments in developed countries with investments in developing countries, which can behave differently.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - On May 9, 2008, an initial offering of the retirement (K) class took place. Returns and expenses prior to that date are those of the non-K, non-advisor class. Had K class expenses been reflected in the returns shown, total returns would have been higher.
-

Invesco Discovery Fund Class R6

VRS Code: 889112

Gross Expense Ratio: 0.65% as of 12/19/2025

Fund Objective: The investment seeks capital appreciation.

Fund Strategy: The fund mainly invests in common stocks of U.S. companies that the portfolio managers believe have favorable growth prospects. It emphasizes stocks of small-capitalization companies. The fund managers consider a small-capitalization company to be one that has a market capitalization, at the time of purchase, within the range of market capitalizations included in the Russell 2000 Growth Index. A company's "market capitalization" is the value of its outstanding common stock.

Fund Risk: The securities of smaller, less well-known companies can be more volatile than those of larger companies. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The Russell 2000 Growth Index is an unmanaged market capitalization-weighted index of growth-oriented stocks of U.S. domiciled companies that are included in the Russell 2000 Index. Growth-oriented stocks tend to have higher price-to-book ratios and higher forecasted growth values.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 01/27/2012. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 09/11/1986, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

JPMorgan Mid Cap Growth Fund Class R6

VRS Code: 815939

Gross Expense Ratio: 0.71% as of 11/01/2025

Fund Objective: The investment seeks growth of capital.

Fund Strategy: Under normal circumstances, at least 80% of the fund's assets will be invested in equity securities of mid cap companies, including common stocks and debt securities and preferred securities that are convertible to common stocks.

"Assets" means net assets, plus the amount of borrowings for investment purposes. The fund invests primarily in common stocks of mid cap companies which the fund's adviser believes are capable of achieving sustained growth.

Fund Risk: Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.

Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

JPMorgan Mid Cap Value Fund Class L

VRS Code: 845587

Gross Expense Ratio: 0.8% as of 11/01/2025

Fund Objective: The investment seeks growth from capital appreciation.

Fund Strategy: Under normal circumstances, the fund invests at least 80% of its assets in equity securities of mid cap companies. "Assets" means net assets, plus the amount of borrowings for investment purposes. Mid cap companies are companies with market capitalizations equal to those within the universe of the Russell Midcap[®] Value Index at the time of purchase.

Fund Risk: Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The Russell Midcap[®] Value Index is an unmanaged market capitalization-weighted index of medium-capitalization value-oriented stocks of U.S. domiciled companies that are included in the Russell Midcap Index. Value-oriented stocks tend to have lower price-to-book ratios and lower forecasted growth values.

MetLife Stable Value Blended Fund

VRS Code: 019434

Gross Expense Ratio: 0.62% as of 03/31/2026

Fund Objective: Seeks to provide current income, consistent with preservation of capital and liquidity.

Fund Strategy: The fund primarily invests in the MetLife Stable Value Account. The unit price, yield and return will vary. The investment objective of the MetLife Stable Value Blended Fund is to protect principal and offer fixed returns that compare favorably with the yields on intermediate-term fixed income securities. Principal and interest are backed by the full faith and credit of Metropolitan Life Insurance Company. Loomis, Sayles & Company, L.P. and BlackRock, Inc. manage the fixed income portfolios which make up the fund.

Participant withdrawals and exchanges are paid at book value (principal and interest accrued to date).

Fund Risk: The Contracts and securities purchased for the fund are backed solely by the financial resources of the issuers of such Contracts and securities. An investment in the fund is not insured or guaranteed by the manager(s), the plan sponsor, the trustee, the FDIC, or any other government agency. The Contracts purchased by the fund permit the fund to account for the fixed income securities at book value (principal plus interest accrued to date). Through the use of book value accounting, there is no immediate recognition of investment gains and losses on the fund's securities. Instead, gains and losses are recognized over time by periodically adjusting the interest rate credited to the fund under the Contracts. However, while the fund seeks to preserve your principal investment, it is possible to lose money by investing in this fund. The Contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the Contracts. In order to maintain the Contract issuers' promise to pay such withdrawals and exchanges at book value, the Contracts subject the fund and its participants to certain restrictions. For example, withdrawals prompted by certain events (e.g., layoffs, early retirement windows, spin-offs, sale of a division, facility closings, plan terminations, partial plan terminations, changes in laws or regulations) may be paid at the market value of the fund's securities, which may be less than your book value balance.

Certain investment options offered by your plan (e.g., money market funds, short term bond funds, certain asset allocation/lifecycle funds and brokerage window) may be deemed by the Contract issuers to "compete" with this fund. The terms of the Contracts prohibit you from making a direct exchange from this fund to such competing funds. Instead, you must first exchange to a non-competing fund for 90 days. While these requirements may seem restrictive, they are imposed by the Contract issuers as a condition for the issuer's promise to pay certain withdrawals and exchanges at book value.

Fund short term trading fees: None

Who may want to invest:

- Someone who seeks a slightly higher yield over the long term than is offered by money market funds, but who is willing to accept slightly more investment risk.
- Someone who is interested in balancing an aggressive portfolio with an investment that seeks to provide stability of price.

Footnotes:

- The investment option is a stable value fund. This description is only intended to provide a brief overview of the fund.
 - This investment option is not a mutual fund.
-

State Street Global All Cap Equity Ex-U.S. Index Securities Lending Series Fund Class II

VRS Code: 909487

Gross Expense Ratio: 0.055% as of 12/31/2024

Fund Objective: The State Street Global All Cap Equity ex-U.S. Index Fund (the "Fund") seeks an investment return that approximates as closely as practicable, before expenses, the performance of the MSCI ACWI ex- USA IMI Index (the "Index") over the long term.

Fund Strategy: The Fund is managed using an "indexing" investment approach, by which SSGA attempts to approximate, before expenses, the performance of the Index over the long term. SSGA will typically attempt to invest in the equity securities comprising the Index, in approximately the same proportions as they are represented in the Index. Equity securities may include common stocks, preferred stocks, depository receipts, or other securities convertible into common stock. Equity securities held by the Fund may be denominated in foreign currencies and may be held outside the United States. In some cases, it may not be possible or practicable to purchase all of the securities comprising the Index, or to hold them in the same weightings as they represent in the Index. In those circumstances, SSGA may employ a sampling or optimization technique to construct the portfolio in question.

From time to time securities are added to or removed from the Index. SSGA may sell securities that are represented in the Index, or purchase securities that are not yet represented in the Index, prior to or after their removal or addition to the Index. SSGA may also utilize other pooled investment vehicles, including those managed by SSGA and its affiliates, as substitutes for gaining direct exposure to securities or a group of securities in the Index.

The Fund may at times purchase or sell index futures contracts, or options on those futures, or engage in other transactions involving the use of derivatives, in lieu of investment directly in the securities making up the Index or to enhance the Fund's replication of the Index return. The Fund's return may not match the return of the Index.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

Footnotes:

- The investment option is a collective investment trust. It is managed by State Street Bank & Trust Co. This description is only intended to provide a brief overview of the fund.
- The MSCI ACWI ex-US Investable Market Index represents approximately 99% of the world's total market capitalization outside the US. The ACWI ex US IMI defines the non-US equity asset class and covers 22 developed markets and 22 emerging markets. The IMI (Investable Market Index) combines large, mid & small capitalization equity offerings and thus, provides the broadest international exposure available. The index is unmanaged and should not be considered an investment. It is not possible to invest directly in an index.
- This investment option is not a mutual fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/13/2014. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 04/05/2010, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool's offering materials for information regarding its' fees and expenses.

State Street Russell Small/Mid Cap® Index Securities Lending Series Fund Class II

VRS Code: 909488

Gross Expense Ratio: 0.022% as of 03/31/2026

Fund Objective: The State Street Russell Small / Mid Cap® Index Fund (the "Fund") seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Russell Small Cap Completeness® Index (the "Index") over the long term.

Fund Strategy: The Fund is managed using an "indexing" investment approach, by which SSGA attempts to approximate, before expenses, the performance of the Index over the long term. SSGA will typically attempt to invest in the equity securities comprising the Index, in approximately the same proportions as they are represented in the Index. Equity securities may include common stocks, preferred stocks, depository receipts, or other securities convertible into common stock. The Fund may purchase securities in their initial public offerings ("IPOs"). In some cases, it may not be possible or practicable to purchase all of the securities comprising the Index, or to hold them in the same weightings as they represent in the Index. In those circumstances, SSGA may employ a sampling or optimization technique to construct the portfolio in question.

From time to time securities are added to or removed from the Index. SSGA may sell securities that are represented in the Index, or purchase securities that are not yet represented in the Index, prior to or after their removal or addition to the Index.

The Fund may at times purchase or sell index futures contracts, or options on those futures, or engage in other transactions involving the use of derivatives, in lieu of investment directly in the securities making up the Index or to enhance the Fund's replication of the Index return. The Fund's return may not match the return of the Index.

Fund Risk: Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

State Street Target Retirement 2025 Securities Lending Series Fund Class V

VRS Code: 905398

Gross Expense Ratio: 0.065% as of 12/31/2024

Fund Objective: The Funds seek an investment return that approximates, as closely as practicable, before expenses, the performance of a custom benchmark index (the "Index") over the long term. The Funds seek to offer complete, low cost investment strategies with asset allocations which become more conservative as you near retirement.

Fund Strategy: The Fund invests in a set of underlying SSGA collective trust funds representing various asset classes. Each Fund (other than the State Street Target Retirement Income Fund) is managed to a specific retirement year (target date) included in its name.

Over time, the allocation to asset classes and funds change according to a predetermined "glide path". (The glide path represents the shifting of asset classes over time and does not apply to the Income Fund.) Each Fund's asset allocation will become more conservative as it approaches its target retirement date. This reflects the need for reduced investment risks as retirement approaches and the need for lower volatility of a portfolio, which may be a primary source of income after retiring.

Once a Fund reaches its target retirement date, it will begin a five year transition period to the State Street Target Retirement Income Fund. At the end of that five year period the allocation to stocks, real estate investment trusts and commodities interests exposure will remain fixed at approximately 35% of assets. The remainder of the Fund will be invested in fixed-income securities.

Fund Risk: The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

- The investment option is a collective investment trust. It is managed by State Street Bank & Trust Co. This description is only intended to provide a brief overview of the fund.
- The custom benchmark index is a composite of S&P[®] 500, Russell Small Cap Completeness[®] Index, Bloomberg Roll Select Commodity IndexSM, MSCI ACWI ex USA IMI Index, Bloomberg U.S. Long Government Bond Index, Bloomberg U.S. Aggregate Bond Index, Bloomberg U.S. Intermediate Government Bond Index, Bloomberg 1-10 Year Government Inflation-Linked Bond Index, Bloomberg U.S. High Yield Very Liquid Index, Bloomberg U.S. 1-3 Year Government/Credit Bond Index, FTSE EPRA NAREIT Developed Index.
- This investment option is not a mutual fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 12/19/2018. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 08/31/2006, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. - The custom benchmark index is a composite of S&P[®] 500, Russell Small Cap Completeness[®] Index, Bloomberg Roll Select Commodity IndexSM, MSCI ACWI ex USA IMI Index, Bloomberg U.S. Long Government Bond Index, Bloomberg U.S. Aggregate Bond Index, Bloomberg U.S. Intermediate Government Bond Index, Bloomberg 1-10 Year Government Inflation-Linked Bond Index, Bloomberg U.S. High Yield Very Liquid Index, Bloomberg U.S. 1-3 Year Government/Credit Bond Index, FTSE EPRA NAREIT Developed Index.
- This investment option is not a mutual fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 12/19/2018. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 07/31/2005, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool's offering materials for information regarding its' fees and expenses.

State Street Target Retirement 2035 Securities Lending Series Fund Class V

VRS Code: 905400

Gross Expense Ratio: 0.066% as of 12/31/2024

Fund Objective: The Funds seek an investment return that approximates, as closely as practicable, before expenses, the performance of a custom benchmark index (the "Index") over the long term. The Funds seek to offer complete, low cost investment strategies with asset allocations which become more conservative as you near retirement.

Fund Strategy: The Fund invests in a set of underlying SSGA collective trust funds representing various asset classes. Each Fund (other than the State Street Target Retirement Income Fund) is managed to a specific retirement year (target date) included in its name.

Over time, the allocation to asset classes and funds change according to a predetermined "glide path". (The glide path represents the shifting of asset classes over time and does not apply to the Income Fund.) Each Fund's asset allocation will become more conservative as it approaches its target retirement date. This reflects the need for reduced investment risks as retirement approaches and the need for lower volatility of a portfolio, which may be a primary source of income after retiring.

Once a Fund reaches its target retirement date, it will begin a five year transition period to the State Street Target Retirement Income Fund. At the end of that five year period the allocation to stocks, real estate investment trusts and commodities interests exposure will remain fixed at approximately 35% of assets. The remainder of the Fund will be invested in fixed-income securities.

Fund Risk: The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

State Street Target Retirement Securities Lending Fund Class V

VRS Code: 905396

Gross Expense Ratio: 0.066% as of 12/31/2024

Fund Objective: The Funds seek an investment return that approximates, as closely as practicable, before expenses, the performance of a custom benchmark index (the "Index") over the long term. The Funds seek to offer complete, low cost investment strategies with asset allocations which become more conservative as you near retirement.

Fund Strategy: The Fund invests in a set of underlying SSGA collective trust funds representing various asset classes. Each Fund (other than the State Street Target Retirement Fund) is managed to a specific retirement year (target date) included in its name.

Over time, the allocation to asset classes and funds change according to a predetermined "glide path". (The glide path represents the shifting of asset classes over time and does not apply to the Retirement Fund.) Each Fund's asset allocation will become more conservative as it approaches its target retirement date. This reflects the need for reduced investment risks as retirement approaches and the need for lower volatility of a portfolio, which may be a primary source of income after retiring. Once a Fund reaches its target retirement date, it will begin a five year transition period to the State Street Target Retirement Fund. At the end of that five year period the allocation to stocks, real estate investment trusts and commodities interests exposure will remain fixed at approximately 35% of assets. The remainder of the Fund will be invested in fixed-income securities.

Fund Risk: The fund is subject to the volatility of the financial markets, including that of equity and fixed income investments. Fixed income investments carry issuer default and credit risk, inflation risk, and interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Principal invested is not guaranteed at any time, including at or after retirement. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking an investment option intended for people in retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option and looking primarily for the potential for income and, secondarily, for share-price appreciation.

Footnotes:

- The investment option is a collective investment trust. It is managed by State Street Bank & Trust Co. This description is only intended to provide a brief overview of the fund.
- The custom benchmark index is a composite of S&P[®] 500, Russell Small Cap Completeness[®] Index, Bloomberg Roll Select Commodity IndexSM, MSCI ACWI ex USA IMI Index, Bloomberg U.S. Long Government Bond Index, Bloomberg U.S. Aggregate Bond Index, Bloomberg U.S. Intermediate Government Bond Index, Bloomberg 1-10 Year Government Inflation-Linked Bond Index, Bloomberg U.S. High Yield Very Liquid Index, Bloomberg U.S. 1-3 Year Government/Credit Bond Index, FTSE EPRA NAREIT Developed Index.
- This investment option is not a mutual fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 12/19/2018. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 07/22/2005, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool's offering materials for information regarding its' fees and expenses.
- As of 04/01/2025, this fund changed its name from State Street Target Retirement Income Securities Lending Series Fund Class V

State Street U.S. Bond Index Securities Lending Series Fund Class XIV

VRS Code: 909490

Gross Expense Ratio: 0.022% as of 12/31/2024

Fund Objective: The Fund seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Bloomberg U.S. Aggregate Bond Index (the "Index") over the long term.

Fund Strategy: The Fund is managed using an "indexing" investment approach, by which SSGA attempts to approximate, before expenses, the performance of the Index over the long term. The Fund will not necessarily own all of the securities included in the Index.

The Fund may attempt to invest in the securities comprising the Index, in the same proportions as they are represented in the Index. However, due to the diverse composition of securities in the Index and the fact that many of the securities comprising the Index may be unavailable for purchase, it may not be possible for the Fund to purchase some of the securities comprising the Index. In such a case, SSGA will select securities for the Fund comprising a portfolio that SSGA expects will provide a return comparable to that of the Index.

SSGA expects that it will typically seek to replicate Index returns for the Portfolio through investments in the "cash" markets - actual holdings of debt securities and other instruments - rather than through "notional" or "synthetic" positions achieved through the use of derivatives, such as futures contracts or swap transactions (except in the unusual case where SSGA believes that use of derivatives is necessary to achieve an exposure that is not readily available through the cash markets). The Fund's return may not match the return of the Index.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

- The investment option is a collective investment trust. It is managed by State Street Bank & Trust Co. This description is only intended to provide a brief overview of the fund.
- The Bloomberg U.S. Aggregate Bond Index is an unmanaged market value-weighted index for U.S. dollar denominated investment-grade fixed-rate debt issues, including government, corporate, asset-backed, and mortgage-backed securities with maturities of at least one year.
- This investment option is not a mutual fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 06/30/2011. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 10/01/1997, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool's offering materials for information regarding its' fees and expenses.

▶ Fidelity BrokerageLink®

Fidelity BrokerageLink® provides expanded investment choices beyond the standard plan lineup that allow you more options to manage your retirement savings. BrokerageLink® includes investments beyond those in your plan's standard lineup. You should compare investments and share classes that are available in your plan's lineup with those available through BrokerageLink, and determine the available investment and share class that is appropriate for your situation. The plan fiduciary neither evaluates nor monitors the investments available through BrokerageLink. It is your responsibility to ensure that the investments you select are suitable for your situation, including your goals, time horizon, and risk tolerance. To open an account and for more information about BrokerageLink, including the *Plan's BrokerageLink Fact Sheet*, the *BrokerageLink Commission Schedule*, and the *BrokerageLink Brochure*, go to netbenefits.com and click on "Quick Links," then select "BrokerageLink."

Step up your contributions with the Annual Increase Program.

Help boost your contribution amount automatically: The Annual Increase Program allows you to increase your retirement savings plan contributions automatically each year. It's an easy way to help keep yourself on track as you get closer to retirement.

ACTION PLAN

- Review the details of the Annual Increase Program
- Choose the amount and date of your annual increase

How does the Annual Increase Program work?

Choose the amount and date for your annual increase, and the rest is automatic. Each year on the designated date, your contributions will increase by the amount you elected.

How does the Annual Increase Program benefit me?

Small increases in your contributions can lead to significant benefits in retirement. When you enroll in the Annual Increase Program, you may help ensure a step up in your retirement plan account contributions each year. This means more opportunity for your savings to grow. It can help you save more but feel less of an impact in your take-home pay.

How do I enroll?

To make your plan's Annual Increase Program part of your retirement saving strategy, log on to NetBenefits® or call your plan's toll-free number to choose the amount and select the date for your annual increase.

What amount and date should I choose for my annual increase?

Choose an annual increase of 1% or 2% and time it to coincide with your annual review or pay increase. The system follows through by automatically increasing your contribution on your selected date each year.

What if I need to make changes or withdraw?

You can change or withdraw from the program at any time by calling your plan's toll-free number or by visiting NetBenefits.®

Additional information about the Annual Increase Program

Eligibility requirements.

To participate in the program, you must be contributing regularly to your workplace savings plan through payroll deductions. If you stop making regular payroll deductions, your annual increase elections will be maintained on the system until conditions change to allow for the application of your elections.

After I sign up, when does the increased contribution go into effect?

Your Annual Increase Program elections will take effect as soon as administratively feasible. Therefore, depending on the frequency of your paycheck, it takes a minimum of one to two pay periods for the election to take effect.

Program elections.

In most circumstances, your increase election will be applied on a pretax basis. If your employer allows Roth deductions, in limited circumstances your election may be applied on a Roth basis.

Exceptions to program elections.

Your Annual Increase Program elections will be applied until you withdraw from the program, subject to the following exceptions:

- **Plan or statutory limits.** If you are close to or over the maximum percentage or dollar amount that you are allowed to contribute to your retirement plan, none or only some of your increase amount will be applied on your designated increase date. However, if you have made a "spillover" election to continue contributions on an after-tax basis, your annual increase election may be applied for the remainder of the plan year.

- **Suspension of plan contributions.** If you are suspended from making contributions to your plan due to certain plan rules, your program increase will also be suspended. Depending on plan rules, your election may or may not be reinstated at the end of the suspension period.
- **Highly compensated employees (HCEs).** If your designation as an HCE limits or otherwise restricts you from making additional contributions, your contributions may not be increased even if you have elected to participate in the program.
- **Change in employment status.** If your deductions are interrupted due to a change in your employment status such as a leave of absence or disability, your program elections will be held on file. It's a good idea to confirm that you are still enrolled in the program when your deductions begin again.

Please consult your plan rules for more detailed information. If you have questions, please call your plan's toll-free number or log on to NetBenefits.®

Need Help?

- Call your plan's toll-free number to speak with a Fidelity Representative

What is the Roth 401(k) Contribution Option?

A Roth contribution is available to employees who participate in the 401(k) plan. For payroll purposes, Roth contributions are treated as after tax. This feature will allow participants to make Roth contributions to their plan while taking their earnings completely **tax-free** at retirement—as long as the withdrawal is a qualified one. A qualified withdrawal is one that can be taken five tax years after the year of the first Roth contribution *and* after the participant has attained age 59½, has become disabled, or has died.

If you qualify to make traditional 401(k) contributions, you are eligible for a Roth 401(k) contribution.

How does a Roth 401(k) contribution option work?

You elect an amount of your salary that you wish to contribute to the Roth source, just as you would for your traditional 401(k). The contribution is based on your eligible compensation, not on your net pay — for example, if your total annual eligible compensation is \$40,000 per year and you elect a 6% deferral amount, then \$2,400 per year would go into your Roth 401(k) account.

Unlike your traditional 401(k) pretax contribution, with a Roth 401(k) contribution, you pay the taxes now on the contributions you make—but later your earnings are all tax-free, if you meet certain criteria.

Example: Sally earns \$40,000 and has elected to put 6% toward her Roth 401(k) contributions and 6% toward her traditional 401(k) pretax contributions on a monthly basis.

	ROTH 401(k)*	TRADITIONAL 401(k)*
Sally's monthly contribution into each account	\$200	\$200
Sally's reduction in take-home pay	\$200	\$156

*This hypothetical example is based solely on an assumed federal income tax rate of 22%. No other payroll deductions are taken into account. Your own results will be based on your individual tax situation.

Your combined Roth and traditional pretax 401(k) contributions cannot exceed the IRS limits for the year.

Would a Roth 401(k) contribution option benefit me?

The potential benefits of Roth 401(k) contributions really depend on your personal situation, but are mainly focused on your existing tax rate and your anticipated tax rate at the time of retirement. If you are contributing to a Roth, you are giving up a tax break today for a tax break in the future.

Therefore, a Roth contribution might benefit you if your tax rate in retirement were **higher** than it had been during the years you contributed.

If your tax rate were **lower** in retirement, then a traditional 401(k) might be more beneficial to you than the Roth option. Talk with a tax professional for more information on how to determine if Roth 401(k) contributions are right for you.

Is a traditional pretax 401(k) still beneficial?

Yes. For many participants, a traditional pretax 401(k) will still be the most beneficial type of retirement savings plan. We do not know what the future holds regarding tax rates. Therefore, it is not possible to predict with certainty which type of 401(k) savings will be most beneficial to a participant.

Remember, because Roth 401(k) contributions are made after tax, you may take home less money in your paycheck than you would if you contributed to a traditional pretax 401(k).

Plan Name: Lam Research

Plan #: 75577

Incoming Rollover Instructions

"Rolling over" money into the Lam Research is a three-step process. Please follow these instructions to ensure that this process is completed in a timely and accurate manner. *Please Note:* Failure to follow these instructions may result in a delay in the processing of your request and may jeopardize your ability to roll over your distribution.

NOTE: After a rollover deposit, a 10-day hold will be placed on your account funds as a security measure. Access to your funds will be limited until after the hold period ends. Need access sooner? Reach out to the Fidelity Benefit Service Center for assistance.

Step 1. Request your distribution

Request a direct rollover distribution from your previous eligible retirement plan. See the Rollover Contribution Form for a list of the types of plans or accounts from which rollovers may be made to your employer's plan. There are two distribution check payable options:

Option 1.

The check can be made payable to Fidelity Investments Institutional Operations Company LLC (or FIIOC), for the benefit of (YOUR NAME). The check must be from the distributing trustee or custodian. (Personal checks are not acceptable.)

Note: This type of distribution avoids automatic income tax withholding. Also, it avoids the possible 10% early withdrawal penalty if you are under the age of 59 ½.

Option 2.

If the distribution was originally made payable directly to you, you must send your rollover contribution to Fidelity via a certified check or money order only for the amount you are rolling over. (Personal checks are not acceptable.)

Note: If your distribution is initially received as a check made payable to you, your rollover must be completed within 60 days of receipt of the distribution. Your previous administrator will be required to withhold income taxes. As a result, you will not be able to roll over 100% of your eligible distribution unless you have extra savings available to make up the amount withheld. You must also roll over that amount within 60 days of receipt of your distribution. If you do not make up the amount withheld, that amount will be considered a withdrawal from the previous program and the taxable portion will be subject to ordinary income taxes and possibly a 10% early withdrawal penalty.

Fidelity does not accept wire transfers of funds. You must request a CHECK from your previous plan or IRA.

The check should be mailed directly to you. Once you have received the check, please follow the directions in Step 2.

Step 2. Initiate your rollover request

Please log on to NetBenefits® at www.netbenefits.com or the NetBenefits mobile app which you can get with the below QR code to initiate your request or complete the Incoming Rollover Contribution Form. Please be sure to complete all items, and sign the form if indicated.

Mobile App QR code:

Failing to properly complete the process will result in your transaction not being processed and your check being returned to you. This form and any separate documentation required by your Plan Sponsor will be reviewed through an automated process. Fidelity will not consider or act upon any unrequested documentation or any information provided outside the areas of the form where specific information has been requested.

Please Note: This rollover contribution will be invested based on the investment elections you have on file for rollover contributions to the Plan. If you have not made investment elections for rollover contributions, this amount will be invested in the Plan-designated default investment option. If you wish to make investment elections for your rollover contribution, please do so via NetBenefits or by contacting Fidelity Investments prior to submitting this form.

If you are not sure of the plan type that you are rolling out of, please contact your previous plan sponsor or IRA custodian for verification. An incorrect plan type could invalidate your rollover.

If you are currently enrolled in the Fidelity® Personalized Planning & Advice, an advisory service, your rollover contribution will

automatically be invested according to your current model portfolio percentages.

Step 3. Mail the information

Mail (1) the Incoming Rollover Contribution Application and (2) the check to:

FIRST CLASS MAIL WITH STAMP:

Fidelity Investments
Client Service Operations
P.O. Box 770003
Cincinnati, OH 45277-0065

Overnight Address:

Fidelity Investments
Client Service Operations (KC1F-L)
100 Crosby Parkway
Covington, KY 41015

Please include all the information requested. Incomplete forms and the accompanying check will be returned to you and may jeopardize your ability to roll over your distribution.

Once your contribution is accepted into the Lam Research, you can log on to Fidelity NetBenefits® at www.netbenefits.com to view your rollover contribution and investment election(s). Please allow at least seven business days for processing. If you have any questions about rollover contributions, call **1-800-835-5095**. Please be sure you have beneficiary information for the Plan on file.

To establish or change your beneficiary information for Lam Research, please access www.netbenefits.com.

You should make a copy of the check and the Incoming Contribution Application for your records.

Plan Name: Lam Research

Plan #: 75577

Incoming Rollover Contribution Application

Section One: Participant Information (please print)

The following section must be completed entirely to ensure that your account is properly set up.

Social Security #: - - Hire Date: ____/____/____ Birth Date: ____/____/____

Participant Name (first, MI, last): _____

Participant Address: _____

City: _____ State: _____ ZIP: _____

Phone (day): _____ Phone (evening): _____

Section Two: Rollover Contribution Information

Please note, after a rollover deposit, a 10-day hold will be placed on your account funds as a security measure.

Acceptable rollover sources

The Plan will accept taxable money* from the following types of employer-sponsored plans: 401(a) plans (e.g., 401(k)); 403(a) plans; governmental 457(b) plans; 403(b) plans (e.g., plans of tax-exempt organizations); distributions of taxable monies made to you as a spousal beneficiary from a current or former spouse from these types of plans, or an alternate payee pursuant to a qualified domestic relations order (QDRO). After-tax contributions from 401(a) and 403(a) plans money may also be rolled into this plan. In addition, the Plan will accept: conduit IRAs (rollover IRAs), nonconduit IRAs (traditional IRAs, Simplified Employee Pension plans (SEP-IRAs)) and "SIMPLE" IRA distributions made more than two years from the date you first participated in the SIMPLE IRA, Roth 401(k) and Roth 403(b).

*** Taxable money is defined as pretax contributions (employee and employer), earnings on pretax contributions, and taxable earnings on after-tax contributions from your previous employer's plan.**

Please provide the following information concerning the origin of this rollover: Plan name: _____

401(k) Plan

Governmental 457(b) Plan

Conduit IRA (rollover IRA)

401(a) Plan

Roth 401(a)/401(k) Plan

Nonconduit IRA

403(b) Plan

Roth 403(b) Plan

Unacceptable rollover sources

The Plan cannot accept money from the following sources: rollovers from beneficiary accounts (other than from a spouse), payments over a life expectancy or a period of 10 or more years, or Required Minimum Distributions (RMDs). Also unacceptable are In-kind distributions of employer stock are not acceptable; therefore, stock must be sold and the proceeds (including any appreciation realized through the date of distribution) may be rolled over.

Section Three: Investment Elections

I direct Fidelity to invest my rollover contribution into my current investment mix applicable to rollover contributions. If I have not selected an investment mix on my own via NetBenefits® or by telephone, I understand that this rollover contribution will be invested in the Plan's default investment option as directed by my employer.

To make an investment election or to request a fund prospectus please log on to www.netbenefits.com.

If you are currently enrolled in the Fidelity® Personalized Planning & Advice, an advisory service, your rollover contribution will automatically be invested according to your current model portfolio percentages.

Section Four: Participant Certification

I authorize the investment election for this rollover and acknowledge that I have received information detailing my available investment options. I acknowledge that my rollover contribution will be invested according to the investment election on file at Fidelity. I also acknowledge that if I do not already have investment elections on file at Fidelity, my rollover contribution will be invested in my plan's default investment option.

I certify that this rollover amount is composed ONLY of money from acceptable sources listed under Section Two, and I have completed the information regarding the source of this money to the best of my knowledge. Also, if the distribution check was made payable to me, I understand that this rollover must be received and deposited to my account within 60 days of receipt of the distribution. I understand that, once invested, these monies will be subject to the terms that govern the Lam Research.

I understand that after a rollover deposit, a 10-day hold will be placed on my account funds as a security measure.

Fidelity Investments Institutional Operations Company LLC

For more information about the Lam Research, go to www.netbenefits.com.

Fidelity® Personalized Planning & Advice at Work is a service of Strategic Advisers LLC, a registered investment adviser and a Fidelity Investments company, and may be referred to as "Fidelity," "we," or "our" within. For more information, refer to the Terms and Conditions of the Program. When used herein, Fidelity Personalized Planning & Advice refers exclusively to Fidelity Personalized Planning & Advice at Work. **This service provides advisory services for a fee.**

A mutual fund expense ratio is the total annual fund or class operating expenses (before waivers or reimbursements) paid by the fund and stated as a percentage of the fund's total net assets. For other types of investments, the figure in the expense ratio field reflects similar information, but may have been calculated differently than for mutual funds. Mutual fund data comes from the fund's prospectus. For non-mutual fund investment options, the information has been provided by the plan sponsor, the investment option's manager, or the trustee. When no ratio is shown for these options, it is because none was available. There may be fees and expenses associated with the investment option. Expense information changes periodically. Please consult NetBenefits.com for updates.

This document provides only a summary of the main features of Lam Research and the Plan Document will govern in the event of discrepancies.

The Plan is intended to be a participant-directed plan as described in Section 404(c) of ERISA, which means that fiduciaries of the Plan are ordinarily relieved of liability for any losses that are the direct and necessary result of investment instructions given by a participant or beneficiary.
