	Employees with employee-only coverage must meet the individual deductible before the plan will begin paying benefits. If you cover dependents, the plan will begin to pay in-network benefits for a covered individual once that person has met the individual-in-family deductible. Once one or more family members have met the family deductible, the plan will pay benefits for all family members for the rest of the year.

[1] When you use out-of-network providers, the plan pays benefits up to the maximum allowed amount (MAA). You are responsible for your percentage share of the MAA, plus any amount the provider charges above the MAA.

[2] Your copayments do not count toward the deductible, but they do count toward the out-of-pocket maximum.

[3] For Oregon members: After you meet the deductible, you pay a $5 copayment for the first three visits of the year (any combination of primary care nonspecialty services, mental health outpatient services, naturopathic medicine visits, substance use disorder outpatient services, and telemedicine services).

[4] Exams provided by an optometrist are not subject to the deductible; you pay the copayment only.

[5] Eligible preventive care services by age and gender are defined by the Affordable Care Act and are listed on healthcare.gov.

[6] There is no cost to you for prescribed preventive care drugs as defined by the Affordable Care Act.

[7] If authorized by your doctor, CVS Caremark permits prescription supplies of up to 90 days.

[8] If a generic drug is available, you pay the difference between the cost of the generic drug and the preferred or non-preferred drug, unless your doctor writes the prescription as “dispense as written.”

[9] Your copayments and coinsurance do not count toward the deductible, but they do count toward the out-of-pocket maximum.

[10] For prescriptions filled at non-network pharmacies, CVS Caremark pays 50% of an approved fee schedule. You’re responsible for your copayment or coinsurance, 50% of that approved amount, plus any cost above the approved amount.

[11] If authorized by your doctor, Kaiser permits prescription supplies of up to 100 days in California and up to 90 days in Oregon and Washington.
